I am a resident of Shelton,Ct and am very embarred by the politicians who claim to represent this State. They have invented phoney groups who claim they are representing the Northe East corner of the State. They have sent the same letter twice under different groups, and have lied about their justifications to oppose the new rule.

The truth is they are being paid off by the Mohegans and Pequots. Their biggest bribes are coming from the business interests in lower Fairfield County who are terrified of loseing their cheap labor supply.

If these politicians were interested in helping the poor and unemployed they would be supporting this new plan. I am sorry to say this State is not called CORRUPTICUT by a misspelling.

Ray Moore

Shelton, CT
